Official Paper of the City of Akron.

TO TELEPHONE THE DEMOCRAT CALL NO. 180.

Trie appointment of new teacher for the public schools is accompanied this year with the usual disappointment to some of those who are termed home teachers. The action of the School Board in dismissing several teachers from the schools upon a plea of "economy," seems to be pretty generally regarded as only a convenient excuse for the real motive.

So THE Republican State Convention is to adopt an anti-trust resolution, says the Enquirer. And that with the President of the United States indebted to the trusts and combines for a mouster campaign fund; and the Vice President from a state reeking with trusts, and the Chairman of the Republican National committee a trust man himself. Are the trusts going to allow it?

THE announcement that Father J. B. Broun and the congregation of St. Bernard's church have decided to build a new place of worship, the structure to cost \$60,000, was good news to all people of Akron. The project speaks volumes of praise for the enterprise of St. Bernard's congregation and the faithful and painstaking labors of their beloved pastor. The new edifice will be a splendid addition to the churches of Akron.

THE vile personal attack made upon the gentlemen of the Citizens' Committee of Fifty by the writer of an anonymous communication in last night's Beacon, is being severely condemned today. As the article was written by a paid agent of the local telephone monopoly. and the Beacon got pay for its publication, is not likely to deceive the people. Senator Alexander, chairman of the Citizens' Chambers, gave judgment in favor of treated, it amounts almost to stultifica-Committee, makes a vigorous reply Tanu for the amount claimed. to the scurrilous article today.

The placing of Dr. Frederick W. Beil-

On the other hand, it was argued his evidence was necessary to show that Bertha was a pure girl; that they knew ers were saints, sent to our soldiers with of the existence of these letters, and that the young cousin was only giving the girl good advice on the subject of self-destruction, which she had time and again told him sheintended to carry ont, to meet her father.

Three of the best physicians in the

BACK TO THE GRAND JURY. The Molineux Case Again Expected to

Jerome in the court of special sessions Bartow S. Weeks, counsel for Roland B. Molineux, contended that inasmuch as the grand jury had passed upon the identical points at issue Justice Jerome had no jurisdiction. Then Mr. Weeks innounced that he was ready for trial. and the district attorney stated that he also was feedy. After further deliberation-Mr. Weeks stated that he would waive examination and asked Justice Jerome to fix bail. The justice said that in waiving examination the case was taken out of his hands and was in the hands of the grand jury, and he refused to fix any bail. Mr. Weeks stated that he would offer no bail, but that he would take the matter before

the grand jury at once. It was expected that inasmuch as the grand jury refused to find an indict- eration, who returned it to the secretary nent against Molineux in the first instance it will again fail to indict him.

RELATIVE OF SHERMAN TALKS.

F. W. Beilstein Told of Secret Corre Probaseo Was Miles' Counsel-Said the Beef Board's Decisions Amounted Almost to Stultification-Troops Now Supplied According to Miles' Ideas.

CINCINNATI, May 11.-H. H. Probasco, ex-United States district attorney here, a relative of ex-Senator Sherman and recently counsel for General Miles, but there was anything improper between who did not appear as such before the them. He admited the use of milk in board of inquiry, in an interview on

"I have not read the report, but have was to be used in making this writing seen the synopsis of it. I was amused visible to them alone, in case the letters that three intelligent army officers, sitting as a court for weeks, and examining several hundred witnesses, should bave rendered such an illogical and uncertain decision. The decision amounts ers were saints, sent to our soldiers with manna from heaven, and that General report the first vague rumor which came to his ears that this food was bad.

He said the court apparently was well satisfied as to the truth of the charges against canned roast beef, because they refused to call certain wirnesses claiming their evidence would be cumulative against only canned beef. What about the embalmed beef?" "Refore bids were received by the commissary general he was advised by

New York of the Proposition of the West indies, and that the best coarse to pursue would be the purchase of beef on the block or beef on the hoof. He told these gentlemen that the parties who desired to furnish the fresh beef had a process which they said would enable them to deliver meat which would keep sound and fresh for 72 hours after delivery from the refrigerator. The day after the bids were opened attorneys in Washington addressed a communication to the secretary of war, making the argument that not withstanding their cli ents bid somewhat higher than the others they ought to be awarded the contract because of their ability to perform their contract by means of the Powell process for the preservation of meat, which they controlled and which had been satisfactorily tested under the auspices of the government. This letter was referred by the secretary of war to the commissary general for his considwith his endorsement, in which he said These tests are not the only tests plain inference that the other bidders

also had processes for the preservation of meat, which had been tested. This letter was returned by the secretary of war. Mr. Daly's testimony, that he had found by chemical analysis of meat furnished the soldiers, that it contained chemicals, was in no wise contradicted. Three witnesses, Sergeant Mason, Lieutenant Gampher and Castle, testified that the agent at Lakeland, Fla., had told them that they had found it impossible to comply with their contracts to deliver fresh meat, which would remain sound and sweet for 72 hours after delivery from the refrigerator without the means of ; chemical process, which process was a secret even to him. If the court found in the face of this testimony that

no meat delivered was chemically cation "Has there

"Indeed there has. Cattle on the hoof are now being delivered in Cuba, slaughtered on the island and delivered to the troops the following day, and no complaint has been made. Furthermore, socalled canned roast beef was dropped as a meat ration sometime. I think during last August or September, all of which shows that General Miles reference to the methods of supplying the troops with meat was an experiment was correct, and that his opinion that beef on the block or on the hoof is the only suitable fresh meat ration for troops was well founded.
